

Roseville Wins, Auburn To Play Here On Sunday

Free Hitting Marathon
As Visitors Take
26 to 10 Win

It took three hours and 15 minutes for the Roseville Merchants to swamp the Truckee Tahoe Mountaineers 26 to 10 in a free-hitting run-fest here Sunday.

Next Sunday the Auburn nine comes here for a contest on the local field and Manager Tom Doolley declares he has a new pitcher signed who is expected to cause the visitors trouble.

In last Sunday's contest, the locals started off right hot and when the game went into the fourth inning Truckee led 5 to 3 and things looked good. Then in the fourth Roseville found the offerings of Frank Giovannoni and walloped the ball for seven runs off six hits to take an undisputed lead. In the fourth the Merchants had 13 men at bat.

Again in the seventh the visitors batted around the order for nine runs off seven hits, 13 men again going to the plate.

Giovannoni went out after five innings and Harvey Martin came into the box for two innings with John Rau winding up the day in good style in the last two frames.

The locals had an off day and a lot of hard luck, although they managed to collect 16 hits off Roseville's star chucker, Jack Hartman. Fielding was not good for the most part, with the ball being booted about considerably.

Moon, Roseville short stop, came out with six hits for seven times at bat, one a homer and another a double.

Homers were hit by Ulsheimer for Truckee, Clark, Moon and O'Shaughnessy for the visitors. Catcher Mike Korich finally found his stride and connected with two hits for three tries. Giovannoni also hit two for three. Ulsheimer got three for six, Martin two for four, Baxter two for four and Christie two for five. Dugan, who went into the field in the fifth, got one for two.

Sun Beams by Walter M. Barrett

The automobile has been made as nearly foolproof as possible. But it can't be made DAMFOOL-PROOF. Keep this in mind, especially if you drive over the Fourth of July weekend. Don't travel so far as to make it necessary to race there and race back. But if you feel that urge to drive like a damfool is irrepresible, then ask "the law" to lock you up until after the holiday. You'll be better off in jail than in the morgue and a lot of other motorists will be safer.

In sponsoring a troop of Cub Scouts, the local 20-30 Club has put forth an effort which should win the endorsement of every sound-thinking citizen. In the formative ages, the young boy or girl is guided on a path which sooner or later will determine his or her adult future. Scouting is one of the finest organizations existing to develop character in the youth and while this one organization cannot be expected to eliminate all delinquency it certainly will be a big help and this week we offer our wholehearted support to the 20-30 and the Cubs.

Fuel Companies Combine As New Concern Formed

Harold Langille Named
As President Of
New Firm

Consolidation of the two major fuel distributing agencies in this district, the Rotary Oil and Burner Company and the Mountain Fuel Company, has been announced here this week.

The new corporation, to be known as the Mountain Rotary Fuel Company, has been incorporated under the laws of Nevada and will function as a unit, combining the resources and facilities of both companies and offering the residents of the district a complete fuel service.

The consolidation takes effect July 1. Temporarily, at least the office and headquarters for the concern will be located at the former Mountain Fuel Company location at the Tahoe-Truckee Wye at Meadow Park. With the exception of increasing the service in both fuel oil and gas there is no major change contemplated in the program.

Under the corporate program, Harold T. Langille, former manager of the Rotary Oil and Burner Company, has been named as president of the new organization, with William Rindfleisch of the Mountain Fuel Co., vice president; V. L. Deaton of the Rotary, secretary-treasurer, and Robert L. Leamon of Rotary and Mrs. Muri Rindfleisch of Mountain Fuel, directors.

Both of the combining units are widely known, the Rotary Oil being a pioneer in the fuel oil business in the region, having been established more than 25 years. Although in the district a shorter time, Mountain Fuel has gained prominence and become one of the leading businesses in the area.

In making the announcement, the new officials declared:

"In order that we may improve our service to you and our other customers we, the Mountain Fuel Company and the Rotary Oil and Burner Company, are combining our operations and will hereafter be known as the Mountain Rotary Fuel Company. We appreciate your past patronage and will be looking forward to the pleasure of serving you in the years to come."

Other changes and improvements in service and facilities are planned and will be announced in the future, Langille said.

by T. BURROUGHS

Mrs. Dorothy Miller Curtis, 28, of Salt Lake City died in a Salt Lake hospital Friday, June 16, of embolism following an accident which resulted in a broken leg while riding horseback at Kings Beach on the morning of June 14. Some unseen object hit the leg with sufficient force to cause the break and leave an open wound requiring five stitches to close. With a doctor's permission, the family left for home the following day arriving shortly before her death. It is supposed that a flying rock from a horse's hoof did the damage. Strange, indeed, is the accident and so tragic the result.

David Trueblood, driving his mother's car, figured in an accident last Saturday night between Tahoe City and Kings Beach. With him were Paul Martin, son of Mrs. David Hall, and Bob

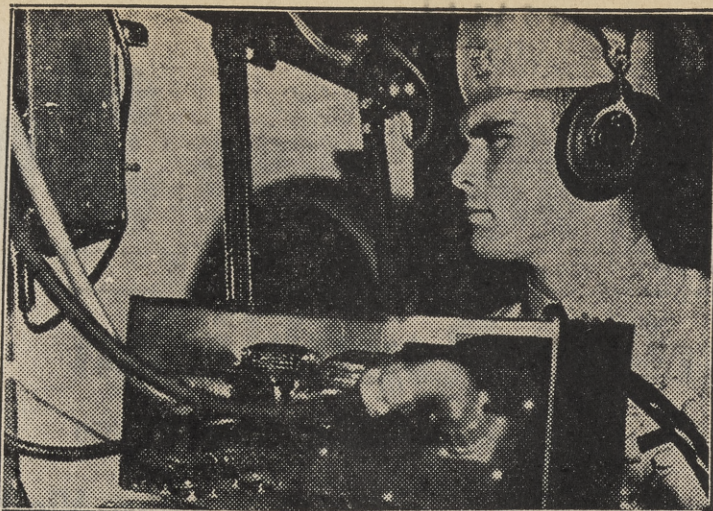

Brennan. None of the boys was seriously hurt. Ahead of the boys was the wreckage of two other automobiles which, in David's attempt to avoid, caused him to leave the highway, crashing into three trees.

Mrs. Evelyn Keys pulled onto the highway off a side street on Saturday afternoon just in time to be hit by a car turning around from the wrong side of the highway. With her were the children and their grandfather. Considerable damage was done to that side of the car but none of the occupants was injured.

Steve Port Jr. overturned his truck on the Truckee short cut asst Tuesday when an oncoming driver wanted more than his share of the road. Steve was only slightly injured.

Don and Nell Barkhurst have as their guest Mr. and Mrs. Jack Stiles of Portland.

Miss Lucille Hallenbeck left on Saturday for San Francisco where she will attend the sum-

"Cherries Are Ripe"!

By Frances Barton

"Cherry ripe, ripe, ripe, I cry
Full and fair ones—come and buy!"

This was the song that Robert Herrick sang in England some three hundred years ago. However, the history of the cherry dates back to 69 B.C., when Lucullus, the Roman soldier and gourmet, was supposed to have brought the cherry to Italy from Cerasus. The popularity of the new fruit spread rapidly and wherever Roman legions were stationed, a cherry orchard grew.

But that's ancient history and homemakers may read it, but their real interest is in the delicious sweet spreads that may be made with cherries. Among jelly makers, cherries are popular because they make delicious spreads alone or combined with other fruits. Either

sweet or sour, cherries may be successfully used for this purpose. Buy good ripe fruit and follow this recipe to the letter.

CHERRY JAM

4 cups prepared fruit
7 cups sugar
1 bottle fruit pectin

To prepare the fruit. Stem and pit about 2½ pounds fully ripe sour cherries. Chop fine and measure 4 cups into a very large saucepan.

To make the jam. Add sugar to fruit in saucepan and mix well. Place over high heat, bring to a full rolling boil, and boil hard 1 minute, stirring constantly. Remove from heat and at once stir in bottle fruit pectin. Then stir and skim by turns for 5 minutes to cool slightly, to prevent floating fruit. Ladle quickly into glasses. Paraffin at once.

CAL-NEVA— Golf fans turned out in large numbers last week-end for the first annual Lake Tahoe Invitational Tournament, sponsored by Cal-Neva Lodge, at the Brockway golf course. As might be expected, the largest

gallery followed popular screen and radio star Bob Hope. The wise-cracking favorite didn't win the tourney but the fans enjoyed a close up of the movie luminary in action on the Brockway links. Bob Cardinal of San Francisco won the tourney with a five-under-par 65 over the heavily wooded course. Cardinal, a former Stanford University star, shot 136 for the two day affair.

His 65 broke the course record of 68. Bob McGlashen had 74-69-143 for second place and Bill Colm of Bakersfield (71-73-144) was third. Vern Callison, Sacramento, and Nick Petropolo and Norman Mann of Los Angeles tied for fourth with 145.

Hope competed in Class B and tallied 85-76-161. His 12 stroke handicap, lowest for the event, put him in 7th place. The event was topped by Stan Kallman (73-78) with a net of 139.

Tahoe, Truckee Golfers
Gene Mathias (81-82) with 141 net won in Class C. In this event competitors included Bill Bechdolt and Carl Bechdolt, Jr. of Tahoe City, Elden Tonini and Frank Gaiennie of Truckee.

Among the pros, Frank Minch of Sacramento carried off \$150 top money with 73-72-141. Harold Sampson hit 73-73-146 for second and Carl Wheeler (78-69-147) was third. The pros were evenly matched. In the first nine out of ten finishers, there was only one stroke difference separating each place. Buz Pendleton in ninth place shot 75-77 for 152.

Barbara Romack, 17-year-old Sacramento girl, was way ahead in the women's division, grossing 161.

In all, the tournament attracted 83 amateurs and 10 professionals.

Tahoe City Rotary Has Many Visitors at Meet

HOMEWOOD—The Tahoe City Rotarians met at Homewood Resort on Tuesday, June 20. Out of the 37 attending, 15 were visiting Rotarians.

Bishop Noel Porter was given a hearty welcome back to Lake Tahoe and he responded by giving one of his humorous stories. Kjell Rustad was the guest speaker and gave a most interesting talk on "Sailing". He told where the seven Coast Guard buoys were located on Lake Tahoe and spoke on wind conditions and the various pressures. Lake Tahoe, he agreed, is the most perfect lake for sailing.

Following is a list of the visiting Rotarians: Bishop Porter, Sacramento; Henry Ford, Modesto; Hall C. Ross, San Mateo; Al Stoddard, Twenty-Nine Palms; Ed Dunbar, Walnut Creek; Gordon O. Moyer, Marysville; Charley Kobes, Lodi; Ted Lorentz, Los Angeles; Mulford K. Miles, Brockway; Don Baumar, Brockway; Everett Griffith, Woodland; Fred S. Wilson, San Jose; Wallace Breuner, Oakland; and Don Huff, Woodland.

Shades of the Winter Season! Squaw Valley Ski Meet Sunday

SQUAW VALLEY—Top event of the mid-summer classic will get underway at 4 p.m. on Sunday, June 2, near the top of majestic 9,000 Squaw Peak.

The entire race will be visible from the top terminal of the 8200 foot long Sky Chair, affording spectators an unusual view of the action.

Since the announcement was made Monday by A. C. Cushing, manager of Squaw Valley, a number of well known western skiers have indicated their intentions of participating in the giant slalom. An open class derby, racers may sign up for the activities right up to race time.

Starting gate will be above the Sky Chair, dropping about 1,000 feet and ending on a small flat just west of the chairway. The course setter will be Stan Tomlinson, member of the Squaw Valley ski school under Emile Allais and former ski patrolman. Assisting Tomlinson will be Wally Young, Mt. Rose ski instructor and well known racing star.

Chair lift will operate from 10:30 a.m. until 6 p.m. daily for the balance of the summer, starting July 1.

Squaw Valley lies just off Highway 89 between Truckee and Tahoe City.

HIRSCHDALE MILL OPERATION IS SUBJECT OF SUIT

RENO—Charging breach of contract in connection with the cutting of a timber stand near Hirschdale, Harry Raynor and Joe Merhar have filed suit for \$6,800 in the district court here against the Peardale Valley Mill and Lumber Co.

The plaintiffs said that last February they were hired by the lumber firm to cut, skid, load and transport 3,000,000 board feet of timber in the Martis Peak area.

After they had moved their equipment to the site, built a mill pond and cut 60,000 feet of timber, the plaintiffs stated, they learned that the lumber company had no right to the timber.

The complaint said the owner of the property, who was not identified, ordered them to stop work.

Under the contract, according to the complaint, Merhar and Raynor were to receive \$17.50 per 1,000 board feet and the work was to be completed before December, 1950. The plaintiffs have received some remuneration but \$6,800 are still due, it is alleged.

The attorney for the defendant company has filed a demurrer asking that the suit be dismissed on the grounds the complaint was improperly drawn.

U. S. ARMY CAPTAIN BRINGS JAPANESE MUSIC TO AMERICA

CAPT. STEWART

When Captain Kermit G. Stewart, an infantry officer, returned from years of combat duty in the Southwest Pacific and the Orient he brought a briefcase full of contemporary Japanese piano music, and is playing it in non-professional recitals for the benefit of American audiences. Much of this music has never before been heard in America.

Among the first to land in Japan in September 1945, Captain Stewart began the study of Japanese music

and the Japanese language. In his more than three years of duty in Japan he devoted his spare time to presenting programs of American music to Japanese audiences.

At the invitation of the president of the Ueno Academy of Music, Japan's outstanding conservatoire, he lectured to the faculty on American public school music methods. In the spring of 1947 he conducted the Toho Symphony Orchestra in a series of four Gershwin Memorial concerts at the Imperial Theater in Tokyo, thus becoming the first American to conduct a major Japanese symphonic organization since the war—and one of the few foreign conductors to conduct rehearsals in the Japanese language.

He also participated in numerous joint recitals of American music with the well-known Japanese soprano, Miss Akiko Asakura.

One of Japan's foremost music critics, Mr. Takatoshi Kyogoku, recently wrote to Captain Stewart, "I believe your recitals including Japanese works have progressed cultural relations between Japan and America and have helped toward an understanding of Japan by the American people."

Captain Stewart, now on duty with the Office of Military History in Washington, served in New Guinea and the Philippines early in the war and earned the Silver and Bronze Stars for conduct under fire. Prior to the war he had been a public school supervisor of music in Nebraska (his native state), New York and New Jersey.

VACATIONERS HAD BETTER LEAVE WILD YOUNG ALONE

Looking for trouble? Then pick up an apparently "deserted" fawn.

This is the way the division of fish and game words its periodic plea to California vacationists taking to the out-of-doors on summer vacations.

According to the state agency, scores of well-meaning persons will this year adopt "lost" deer, bears and birds found in the woods and brushland.

Experience has shown that the new parents are in for it. Fawns and bear cubs are ungrateful fellows and frequently turn on their protectors with unpleasant result. If the animal is taken home, the foster parents might as well say goodbye to nearby garden shrubs and trees. The expense of feeding is greater than for most domestic pets and California has the highest sentences in the nation for possession of deer out of season—\$500 fine and six months in jail.

More important, says the division, the young animal was probably not deserted by its mother. Fawns, for example, are frequently left alone several hours

at a time between feedings for better protection. Returning the youngster to the wilds after a visit to civilization is generally out of the question. The fawn or cub, bearing the scent of man, is usually given the cold shoulder by all wildlife—parents included.

Best advice the old-timers can think of is to leave all wildlife alone. The nearest fish and game warden will be glad to lend an ear to reports of orphan woods babies where reasonable doubt exists.

County Political Groups Will Meet on July 11

The Nevada County Republican and Democratic central committees elected in the June 6 primary election will meet at the Nevada County court house in Nevada City on July 11 to organize and choose chairmen.

Elected for the GOP group from this district were Douglas Barrett and B. W. Reynolds. None were elected by the Democrats and the two vacancies will be filled by appointment after July 11.

There are, on the average, only two thunder storms a year in San Francisco.

KINGS BEACH MAN HAS GOOD RECORD AT NAVY TRAINING

KINGS BEACH—Word was received here last week by the Reno district U.S. Navy recruiting office that David C. Trueblood, 19, Kings Beach, Lake Tahoe, is more than half way through his 42-week electronics course at Treasure Island and may continue his studies toward becoming an instructor there.

He enlisted at Reno last August 8 prior to being sent to San Diego for recruit training, where his team won the intramural baseball championship of the base. Bob Feller, big league pitching ace, made the award presentation to Trueblood in October, according to an announcement by Wayne Fleming, recruiter for the Reno district.

Seaman 2nd Class Trueblood is the son of Mrs. Alta J. Elder of Kings Beach.

YOUR Chamber of Commerce

The Chamber of Commerce is never in competition with any other organization in the community. It is the only one of its kind. If it is active, it will be criticized from some sources.

It has no axes to grind. When the membership or the Board of Directors determine upon a policy, always the stand is taken for what public-spirited citizens honestly believe to be the best interests of the community.

The only limitation of a Chamber of Commerce for achievement in the public interest is the extent of support which it receives in dues, membership and personal services.

Your Chamber of Commerce, its officers and committees, are what you make them — no more and no less. After all, your Chamber of Commerce is not a stranger in your midst, engaged in some mysterious enterprise with which the community is wholly unfamiliar and about the propriety of which it is disposed to be skeptical and suspicious.

A Chamber of Commerce is the organization which does those things for the welfare of the community a whole lot of people think "just happen."

PETE LAND LEAVES FOREST SERVICE AFTER MANY YEARS

Guerdon Ellis, forest supervisor, Tahoe National Forest, announces this week the retirement of the Tahoe Forest's oldest employee in years of service. He is Ranger Francis (Pete) Land, district ranger of the Sierraville district.

Land was first appointed as forest ranger on the Foresthill District of the Tahoe Forest in May, 1921. He was assigned to the Sierraville District in May, 1925, and has remained there ever since.

Land is a veteran of World War I with overseas service. He was wounded in action on the Western Front.

"The Tahoe Forest is losing a very capable ranger as well as the mainstay of the organization," Ellis said in announcing his retirement, effective the end of this week. "He will not only be missed by the Tahoe personnel but also by many local residents who have dealt with him for so many years," Ellis added. Ellis also announced the transfer of Ranger Francis R. Sodolski to replace Land. Sodolski comes from Pike National Forest, Colorado. He is married and has two children.

Sodolski, 38, is a graduate of the University of California, school of forestry, and has been in the Forest Service since 1934 in various capacities. He is well experienced in land management activities and is well suited for the type of work carried on at the Sierraville Ranger District.

Fats for Health
If you are trying to reduce, don't cut out fats entirely. Fats and oils are much more than foods that put on the pounds. Everyone needs them because they're an important part of every tissue in the body. Of course, fats and oils are high in calories—but you must have calories for energy. Watch the total number of calories you eat when reducing and don't just eliminate the fats.

Counties of Louisiana are called "parishes" after the old Spanish religious divisions.

DEAD OR ALIVE ON JULY FIVE? IT'S UP TO YOU

"Whether you are alive or dead on July 5 is largely up to you."

With that grim warning to motorists and pedestrians, Commissioner Clifford E. Peterson of the California Highway Patrol appeals for public cooperation in an all-out effort to hold down traffic accidents and fatalities over the coming Fourth of July holiday and the preceding week-end.

At the same time he announced that every available officer will be assigned to traffic duty over the four-day period beginning July 1. All such assignments throughout the state will be based upon the probable time and location of accidents as shown by previous holiday experience, he said.

"We are expecting the roads to be jammed with traffic," he stated. Most of the 4 1/2 million vehicles registered in California will be on the highways sometime during the period, Peterson pointed out. Added to them, he

said, will be tens of thousands of out-of-state cars. Only fifteen per cent of beef is steaks.

ANOTHER STRIKE

AGAINST THE PUBLIC AND INDUSTRY AND AGRICULTURE SERVED BY FIVE WESTERN RAILROADS

President Truman's EMERGENCY BOARD recommends a 40-hour week and a pay increase of 18 cents an hour, or \$1.44 a day for switchmen represented by the Switchmen's Union of North America.

• Notwithstanding the tremendous increase in their expenses involved, the

Railroads' answer to Board is ...

Union leaders' answer to Board is ..

In face of Board findings to the contrary, union leaders insist on 48 hours pay for 40 hours work. This would be an average increase of 31 cents an hour, or \$2.48 a day. So Union leaders have called a completely unjustified strike on 5 Western railroads, effective June 25.

On June 15, an Emergency Board appointed by President Truman under the terms of the Railway Labor Act recommended the railroads grant switchmen a 40-hour week and a wage increase of 18 cents an hour, or \$1.44 for an 8-hour day.

Despite the added financial burden involved, the railroads are ready to accept these recommendations, as they have always accepted Emergency Board recommendations on national issues. But the leaders of the Switchmen's Union refuse to accept! They demand an average increase of 31 CENTS AN HOUR or \$2.48 A DAY—although their present earnings are substantially higher than those of workers in other industries!

Board Says Demands Unjustified
In its report, the Board declared this demand unjustified by all the evidence presented. It also pointed out that it would give the switchmen an unfair pay advantage over other groups of railroad employees, and would add too great a burden to railroad costs.

Here is another case of a railroad union flouting the findings of an Emergency Board—another case of calling a crippling

strike in an outrageous and reckless attempt to force demands which the Board clearly labels as unjustified!

Leaders of the Switchmen's Union are calling this strike in defiance of the Board—in defiance of the facts—and at the expense of the public!

In its report on this case, the Board made this statement:

"The railroad industry, the Board believes, needs above all else a period of relative stability to adjust and adapt itself to present competitive post-war conditions."

Despite this warning, the leaders of the Switchmen's Union are upsetting the apple-cart—forcing a completely unjustified strike against everybody who uses the railroads.

FIVE WESTERN RAILROADS AFFECTED BY THE JUNE 25 STRIKE
The five railroads affected by this strike, which goes into effect at 6:00 A.M. local time, Sunday, June 25, 1950, are:
Chicago Great Western Railway Company
Chicago, Rock Island & Pacific Railroad Company
The Denver & Rio Grande Western Railroad Company
Great Northern Railway Company
The Western Pacific Railroad Company

It is time to put an end to such un-American tactics!

The Answer to a Raw Attempt At Dictatorship is "No!"

In the interest of the public who depend on the railroads every day, there can be only one answer to this outrageous and dictatorial action by the leaders of the Switchmen's Union. And that answer is—"NO!"

We are publishing this and other advertisements to talk to you at first hand about matters which are important to everybody.

FOREST BOSS' TRAIL**
The boy who watched log
drives on the Connecticut River
years ago and wished he could
be a lumberjack will be the new
boss of the Eldorado National
Forest with headquarters at
Placerville, effective July 1.
He is Wesley W. Spinney, 42,
forester at U. S. Forest Service
regional headquarters in San

Francisco, whose appointment as
supervisor of the Eldorado forest
was announced Saturday by Re-
gional Forester Perry A. Thomp-
son. Spinney succeeds Edwin F.
Smith, who is retiring after 30
years as supervisor.
Spinney's birthplace, the river
town of Woodsville, N.H., was
close to the White Mountain
National Forest. Hunting and
fishing trips gave him a liking
for the outdoors. A summer va-
cation job on control of blister
rust which threatened fine stands
of pine decided him on his
career.

One of a large family, he had
to borrow money for study in the
east and at the University of
California forestry school, where
he graduated in 1933.
To repay the loan and support
himself, he worked summers as
a lumberjack or timber cruiser
in California—sometimes for the
Forest Service, sometimes for
lumber companies. He has known

the California woods for 22
years.
His federal career began 17
years ago in northern California
on blister rust control work for
the U.S. bureau of entomology
and plant quarantine. Spinney
transferred to the U.S. Forest
Service in 1936. In the past six
years he gained progressive ex-
perience as district ranger on
the Trinity forest, fire control
officer on the Lassen forest and
timber management officer in
the Sierra forest.
In World War II, as an air
combat intelligence officer on
Admiral Halsey's staff, Spinney
won the Commendation medal
for work in New Georgia beach
landings. Later, in London on
Navy liaison with the RAF, he
was wounded by a V-1 bomb. In
1945 he did technical work in
Japan and then was discharged
with the rank of lieutenant com-
mander.

**ADVENTISTS PLAN
10 DAY SESSION
AT TAHOE TRACT**

Annual camp meeting of the
Nevada-Utah Conference of Sev-
enth Day Adventists will again
be held at the Methodist camp-
ground on the shores of Lake
Tahoe June 30 to July 9. Four
hundred persons living in tents
will attend daily sessions during
the 10-day period and several
hundred more will be present for
weekend meetings, it was an-
nounced by R. Allen Smithwick
of Reno, conference president.

Campers will participate in a
varied program of devotional and
study sessions. Separate meet-
ings, emphasizing Bible study
and crafts, will be conducted for
children of different age groups.
Speakers at the conference will
come from Beirut, Lebanon; Cal-
cutta, India; Singapore, and
Washington, D.C.
Officers of the Pacific Union
Conference from Glendale will
also take part in the program.

**ALICE SORENSEN
TOP VOTE GETTER
FOR COUNTY POST**

AUBURN— Among the three
candidates for places on the
Democratic County Central Com-
mittee in the 4th supervisorial
district of Placer County, Mrs.
Alice Sorensen of Tahoe Vista
topped the field with 593 votes,
the official canvass of the June
6 primary election shows. Leroy
Carter and Robert B. Lacy of
Dutch Flat received 587 and 571
respectively. Since there were
three vacancies for the district,
all were elected.

National Forest, in charge of
resource management, earned
him his promotion in 1948 to
forester in the timber manage-
ment division of San Francisco
headquarters. That work took
him to many of the 18 national
forests in California.

Spinney is married. He is a
member of the Society of Ameri-
can Foresters and the American
Legion.

It's a long trail from the
White Mountains to the Sierra
Nevada and the shores of Lake
Tahoe. Wes Spinney, the ex-
lumberjack, now will be making
jobs for many lumberjacks—and
contributing to the livelihood of
many livestock growers, irriga-
tion farmers and recreation in-
dustry workers who depend on
the resources of the Eldorado's
640,000 acres.

**Child Health Sessions

back an interesting item from Miami, Florida. An old dish emblazoned with "Compliments of Truckee Mercantile Co." it's back in town at Bill's emporium of the old and older. Steve Kolas has a penchant for turning up knick knacks of yore. His latest is an unused leatherette covered note book "Compliments of J. R. Rossarini, Dry Goods, Notions & Gents' Furnishing Goods, Truckee, Cal." the calendar in the front is dated 1918. Maury Franzini really looks tough. His hands are all bandaged and his face blistered. Looks like he had scalded himself. But, no, Maury says it's just an allergy to housecleaning. Or at least to a housekeeping preparation. Sure hope you're better soon. Tarzan

by EDGAR RICE BURROUGHS

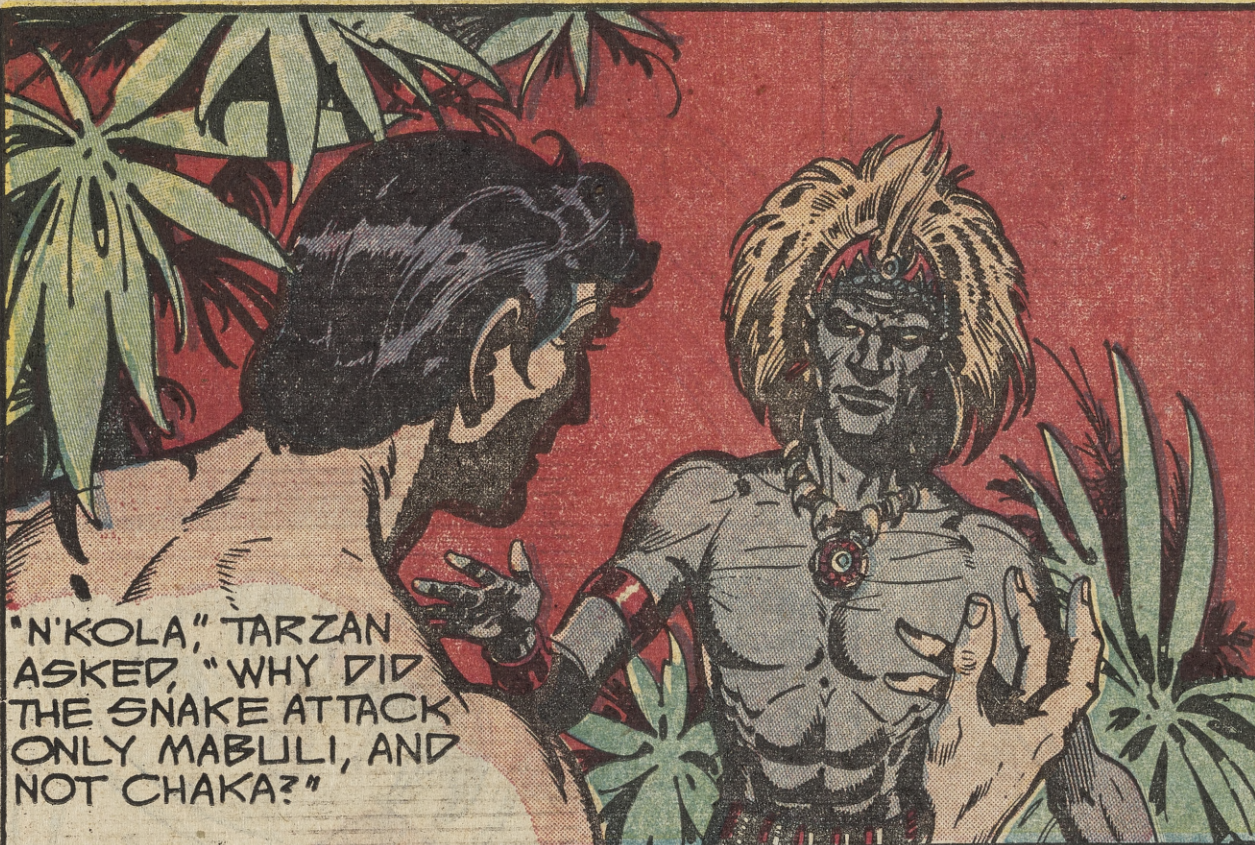

HAVING ROUTED THE DAGOMBAS, N'KOLA TURNED HIS ATTENTION TO SAVING THE LIFE OF CHIEF MABULI FROM SNAKE POISONING.

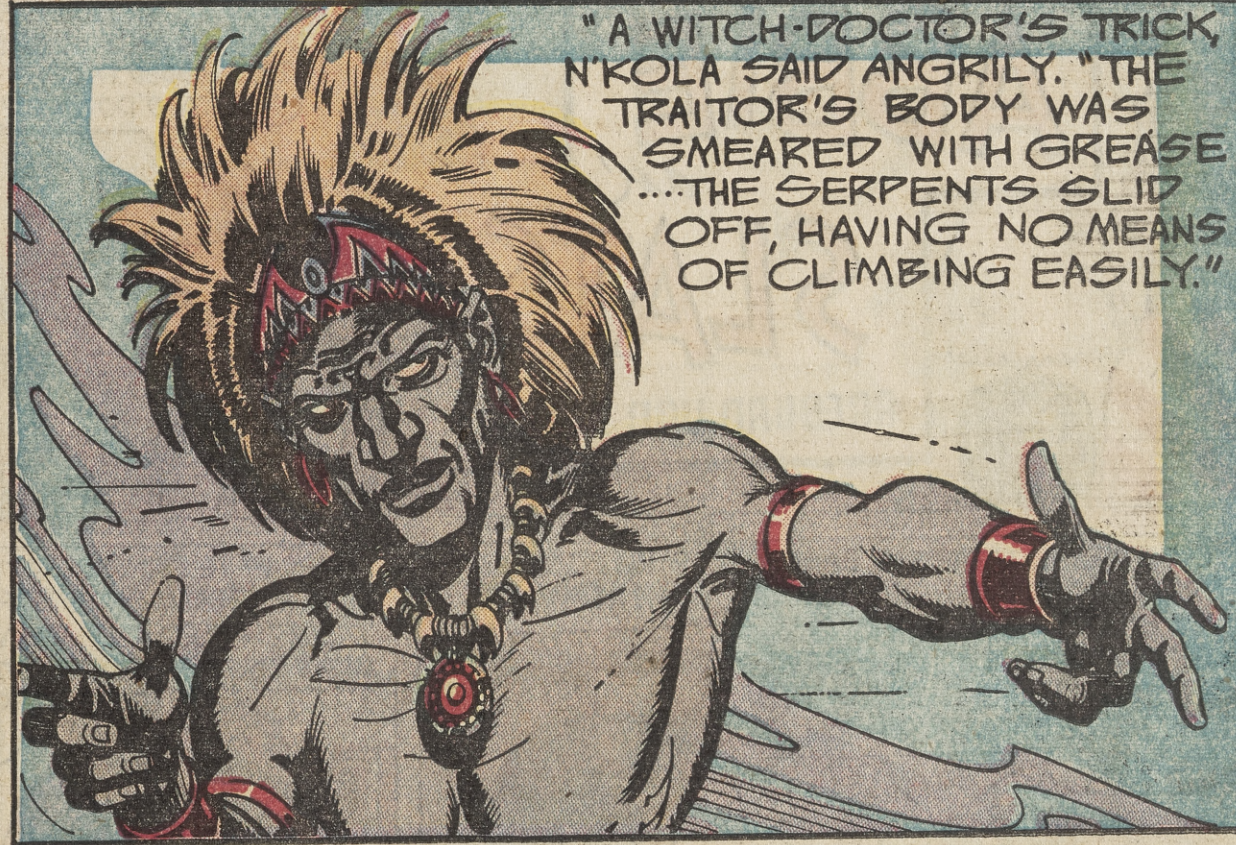

SEVERAL TIMES N'KOLA CHANGED THE DRESSING, AND SOON THE SWELLING BEGAN TO GO DOWN.

"I HAVE SENT A RUNNER TO BRING WARRIORS," N'KOLA SAID. "MABULI SHOULD BE WELL BY THE TIME THEY ARRIVE."

"N'KOLA," TARZAN ASKED, "WHY DID THE SNAKE ATTACK ONLY MABULI, AND NOT CHAKA?"

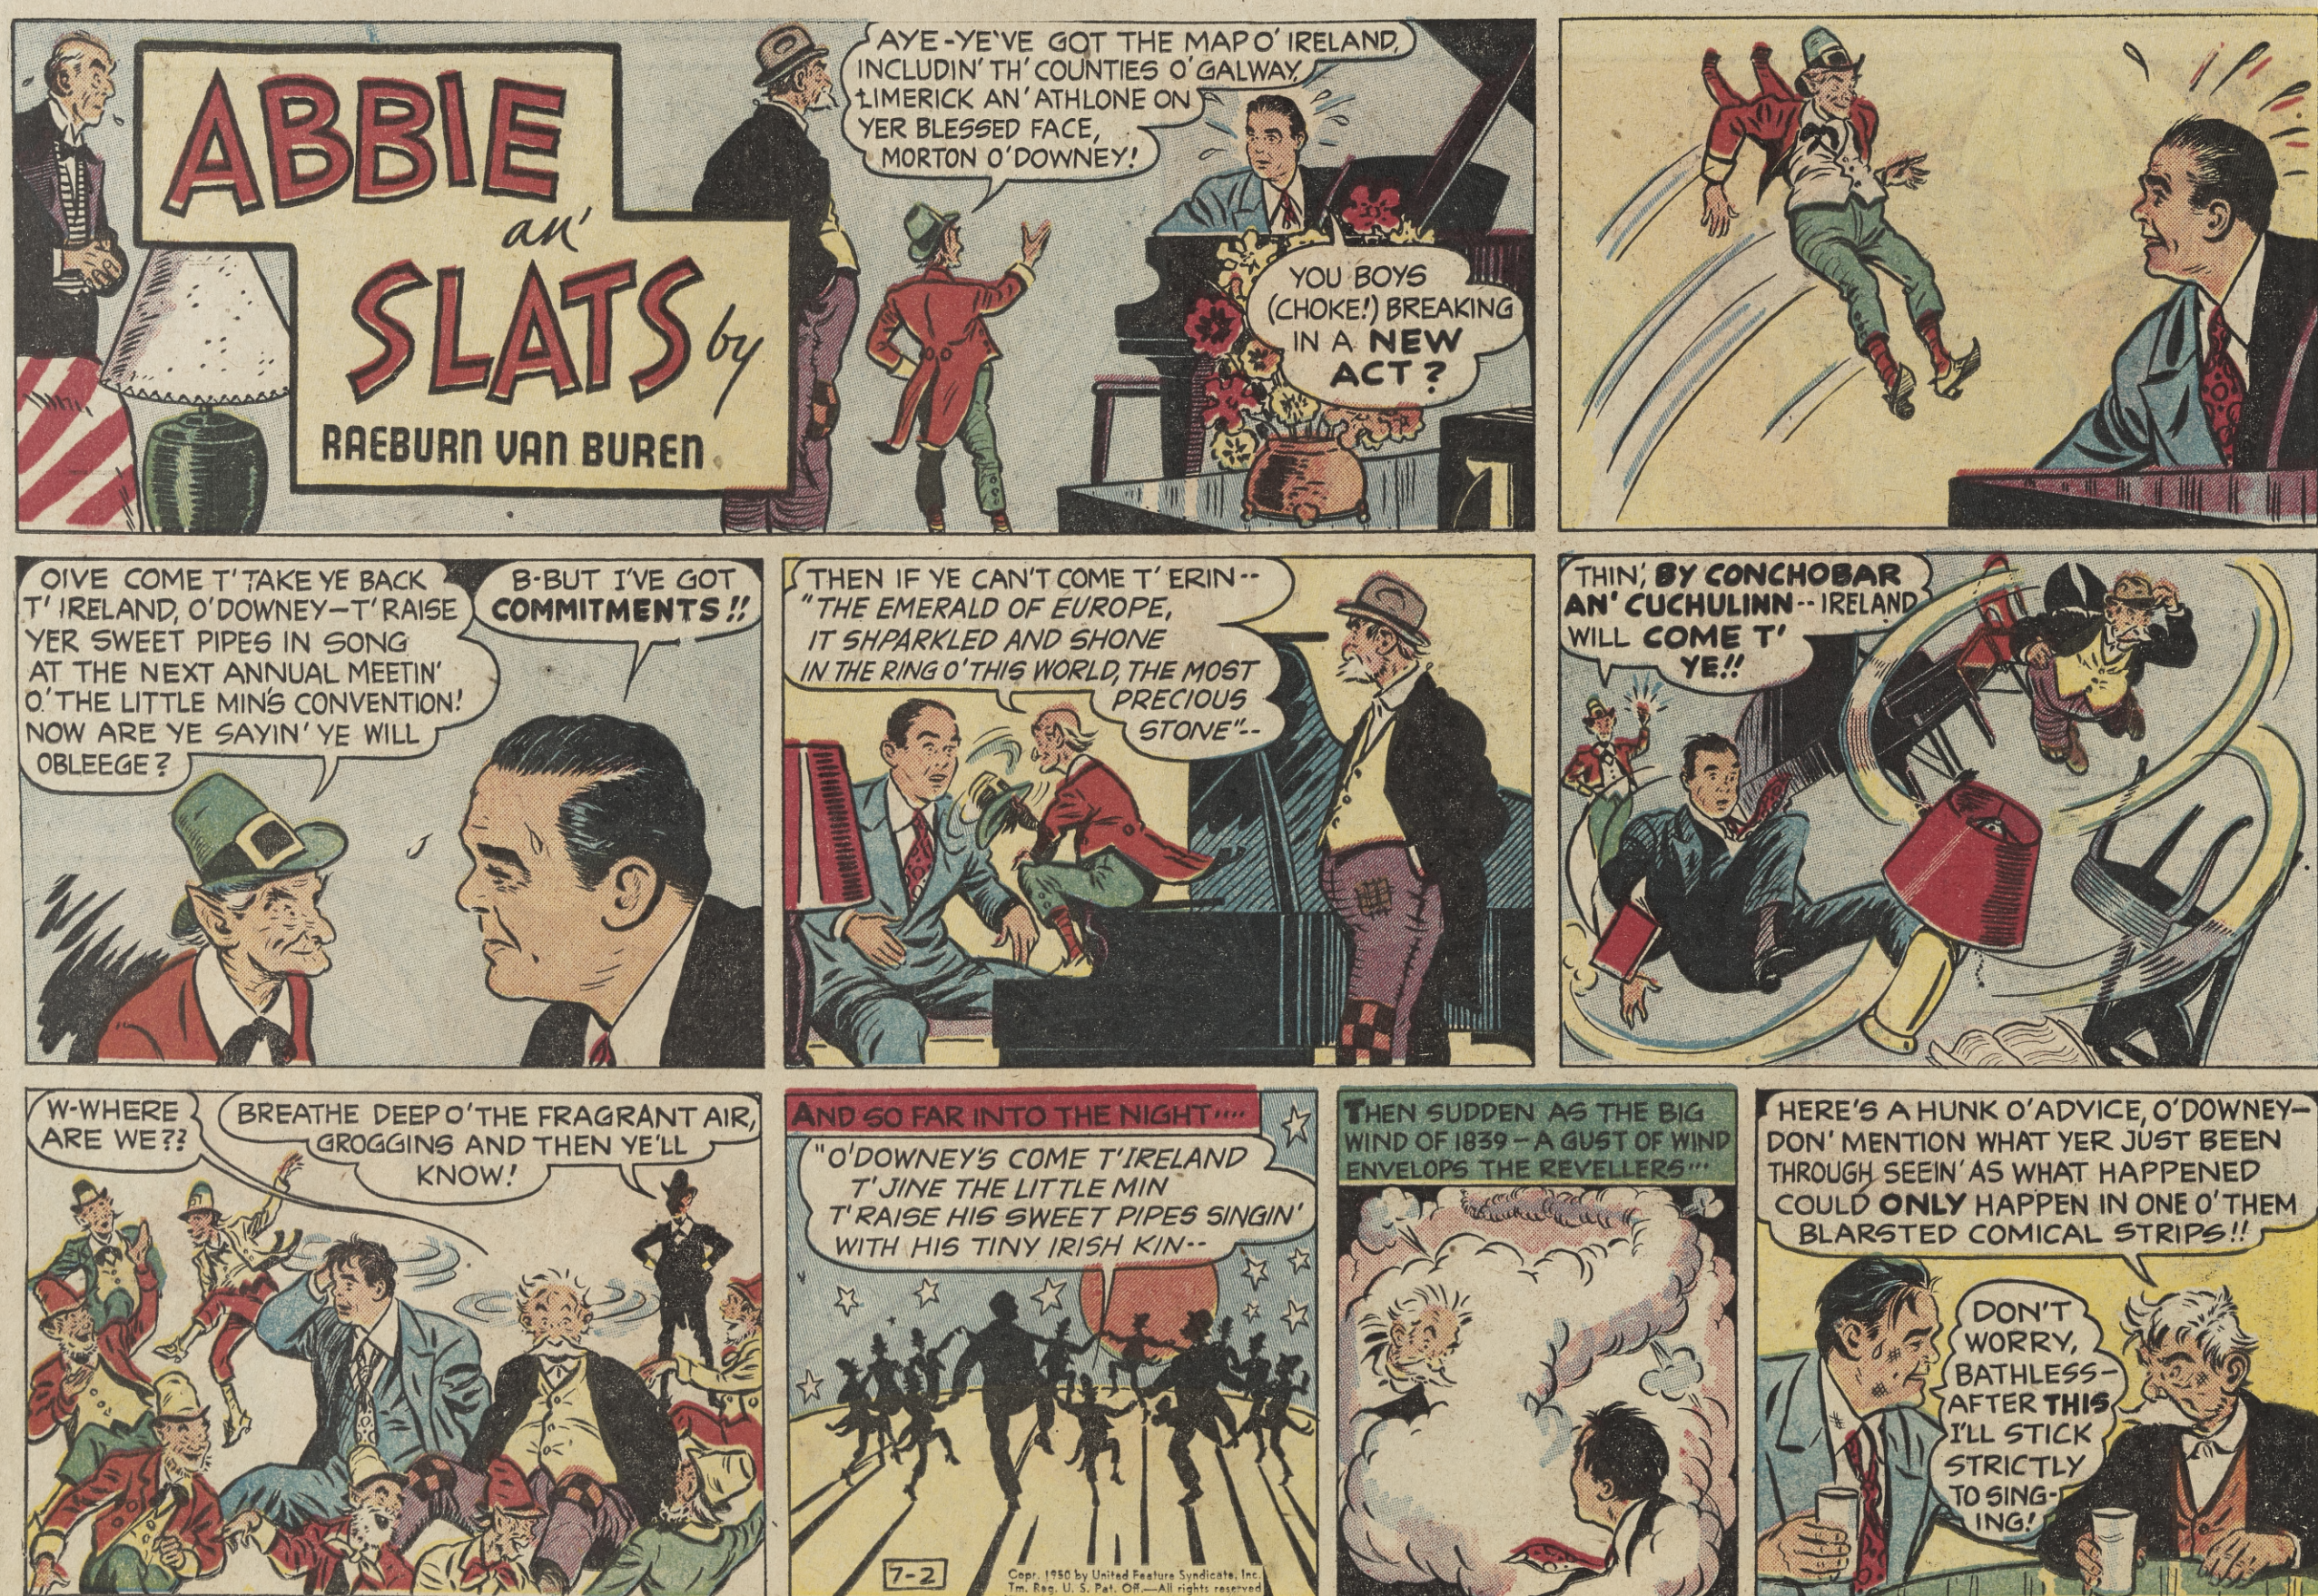

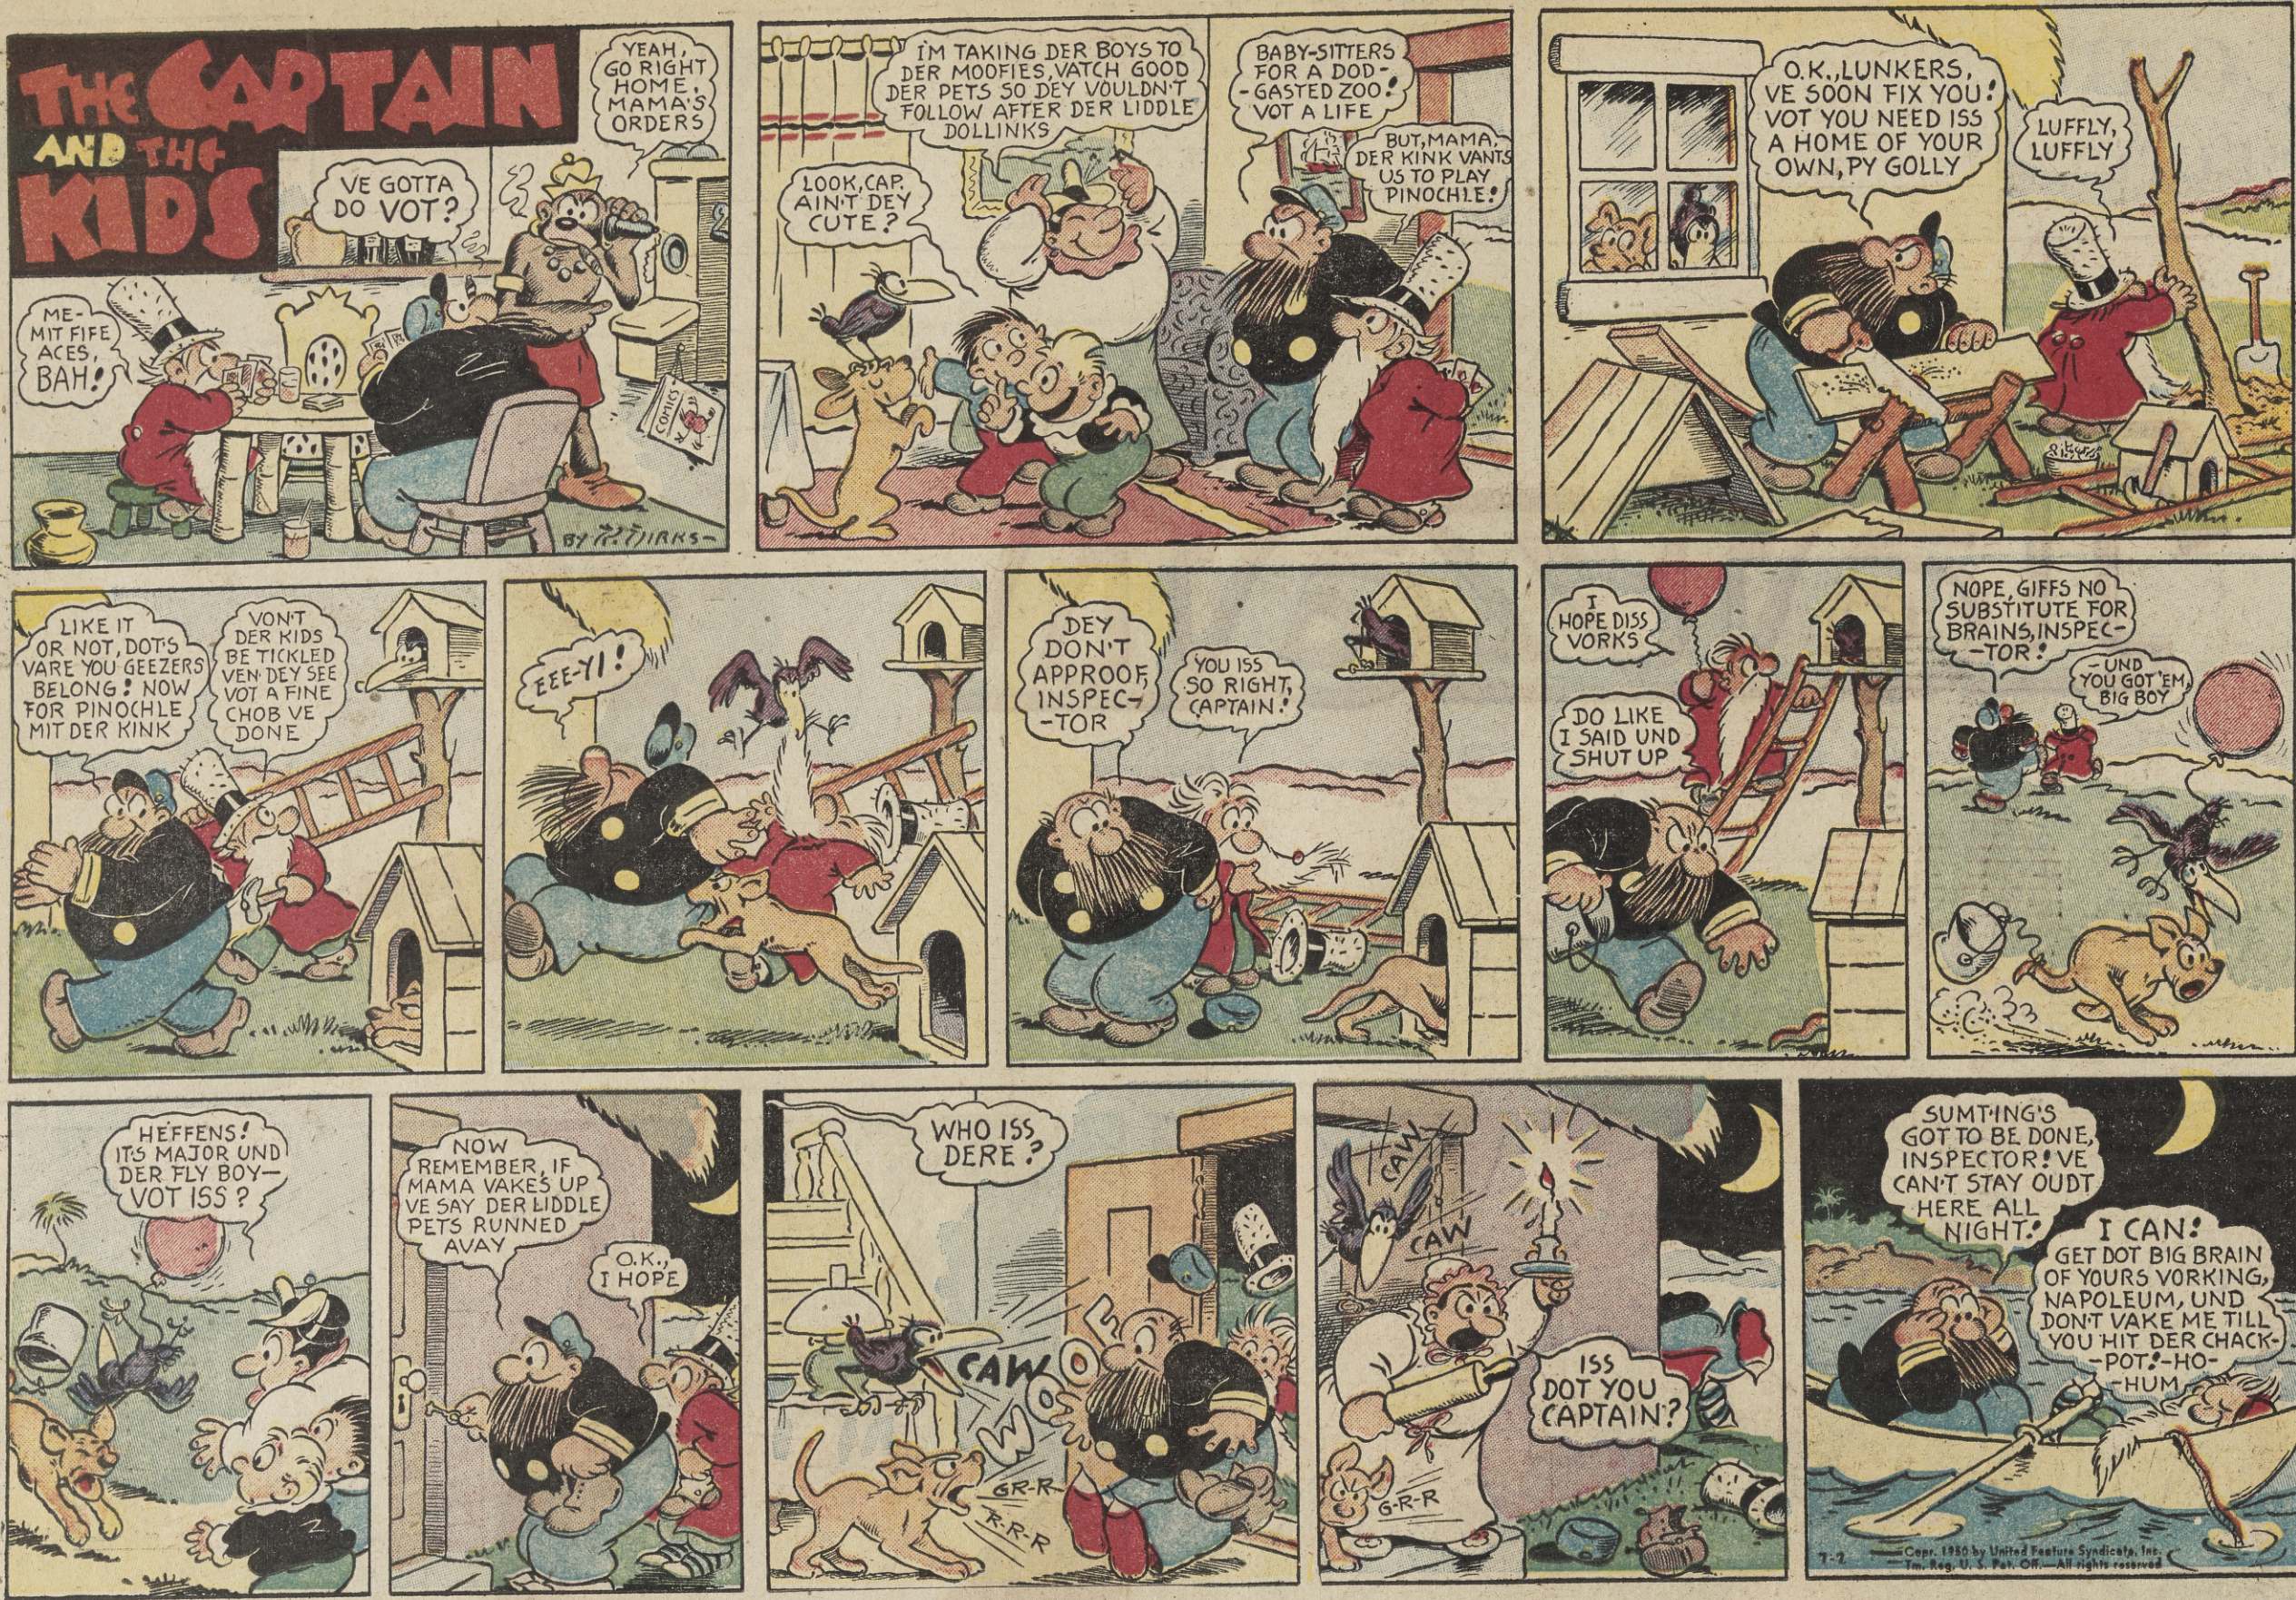

"A WITCH-DOCTOR'S TRICK," N'KOLA SAID ANGRILY. "THE TRAITOR'S BODY WAS SMEARED WITH GREASE...THE SERPENTS SLID OFF, HAVING NO MEANS OF CLIMBING EASILY."

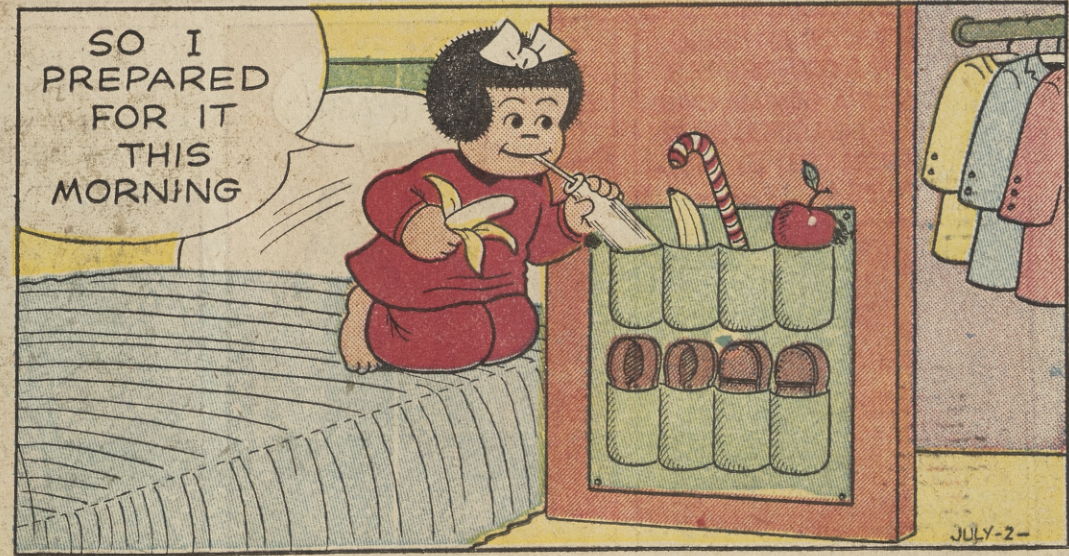

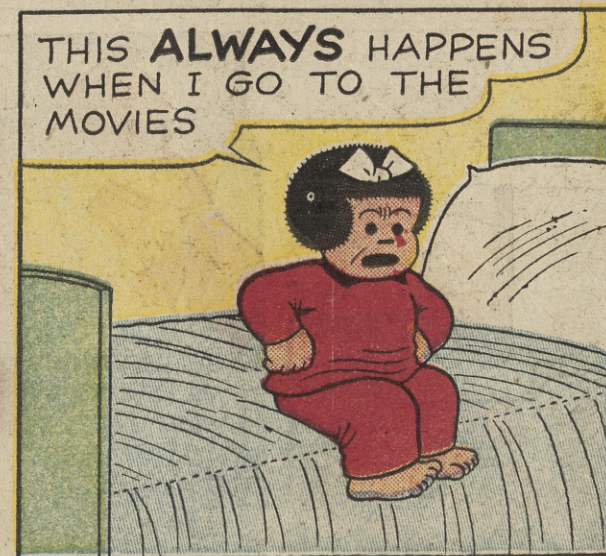

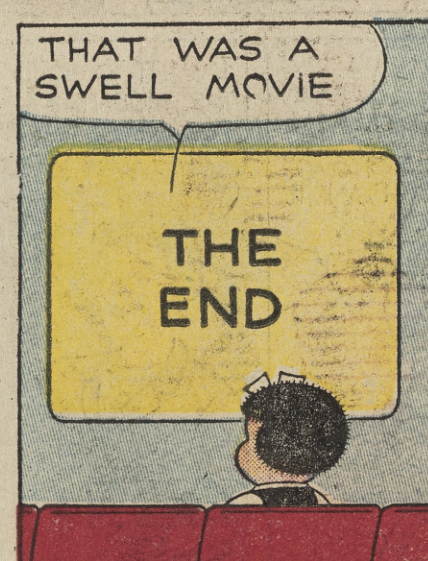

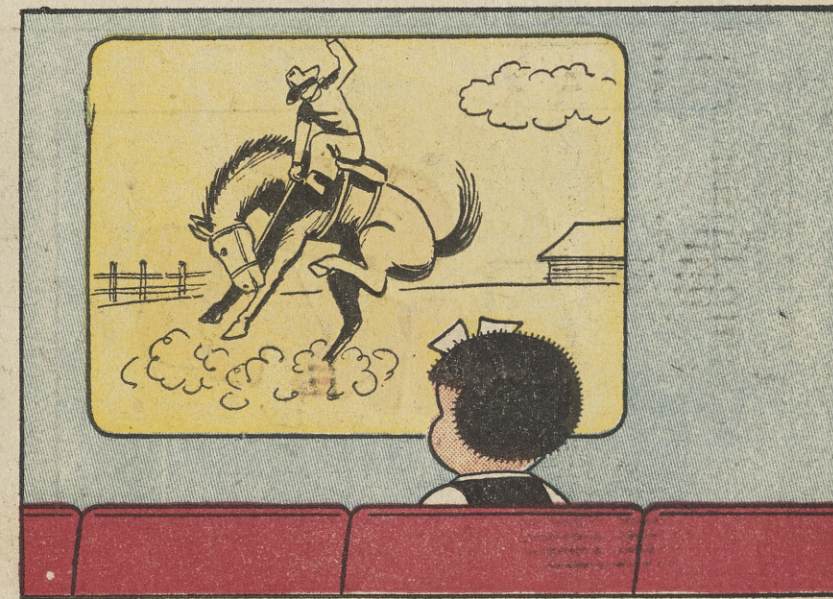

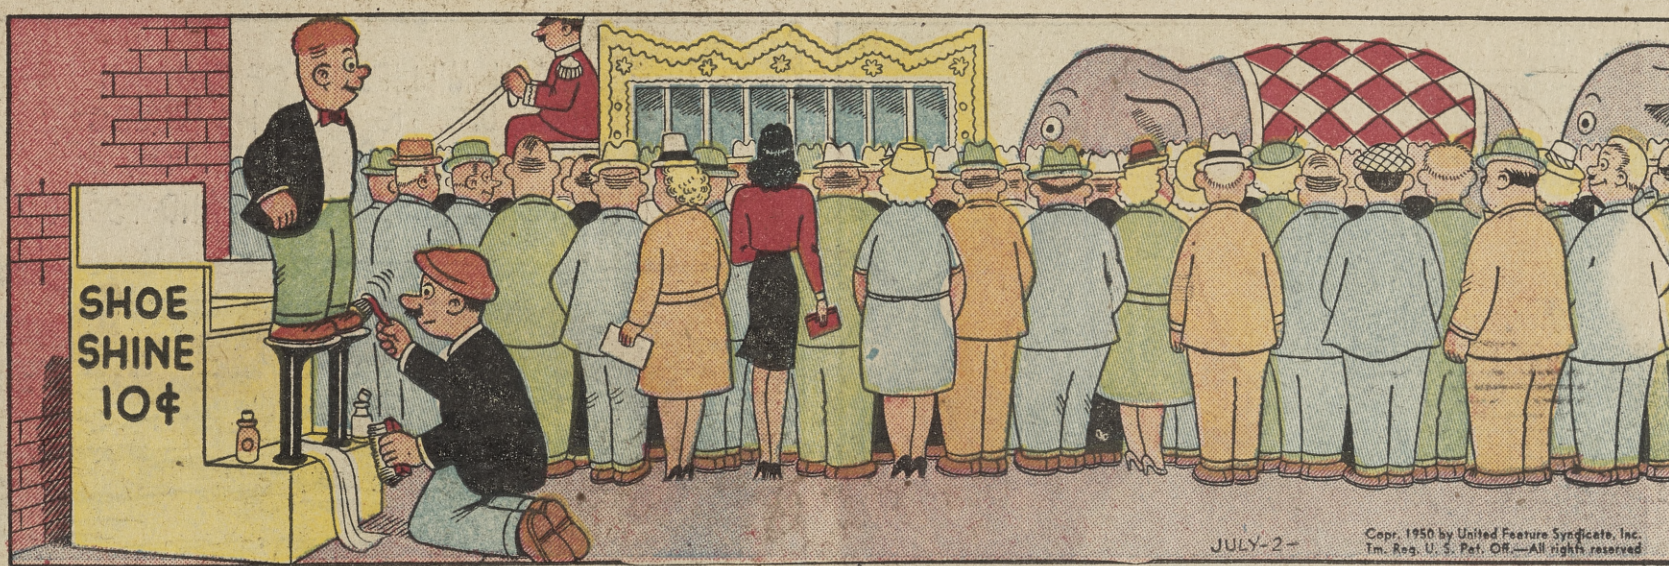

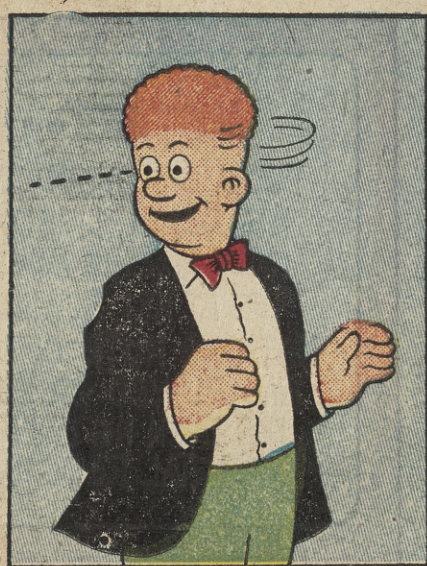

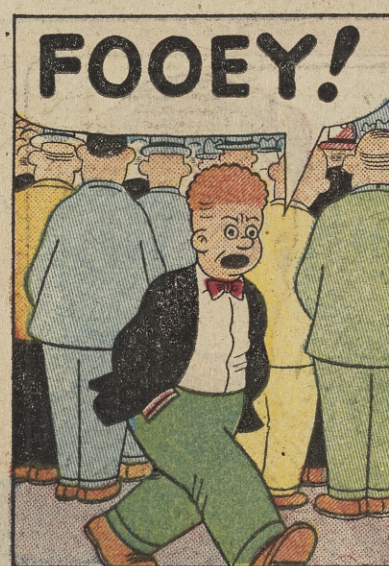

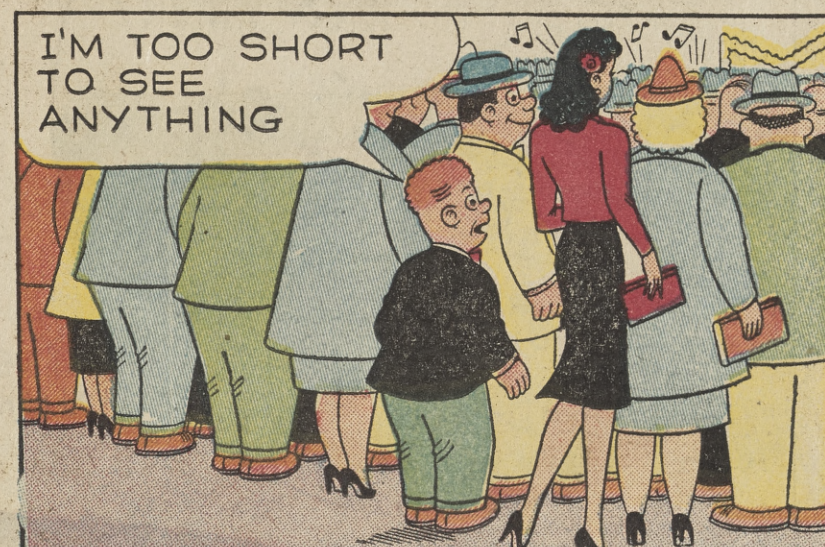

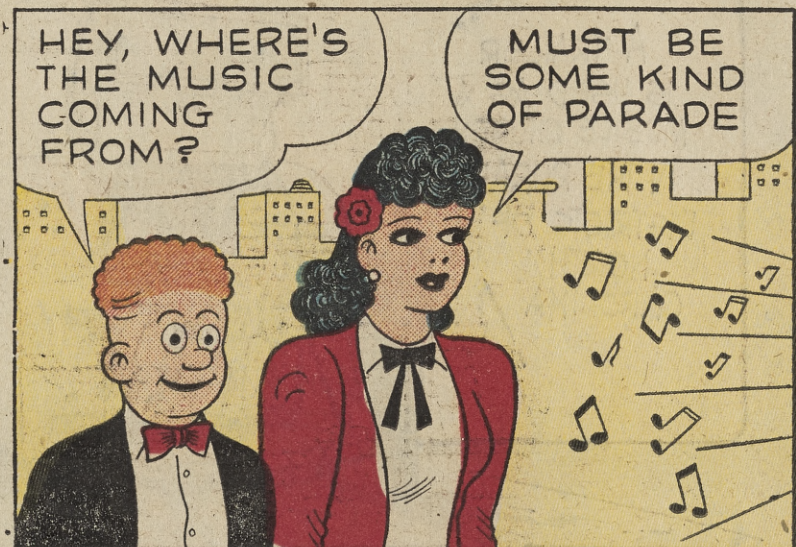

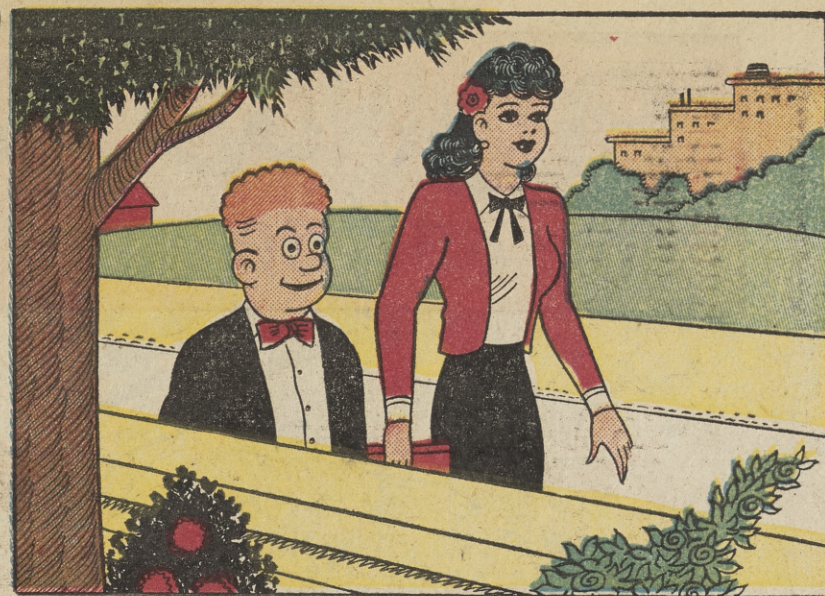

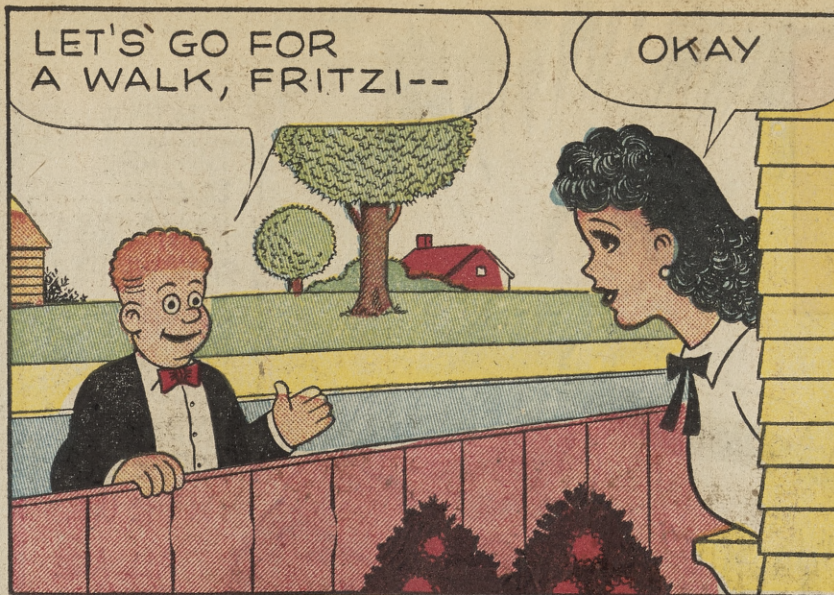

WHILE THEY RESTED, N'KOLA SENT MEN TO SPY ON THE OPERATIONS AT THE LAKE NEAR THE DAGOMBA VILLAGE.
